

How to make a picture book on iphoto

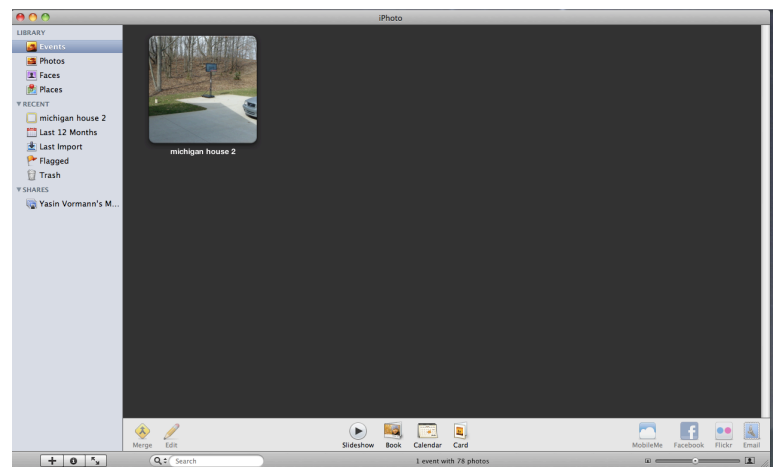

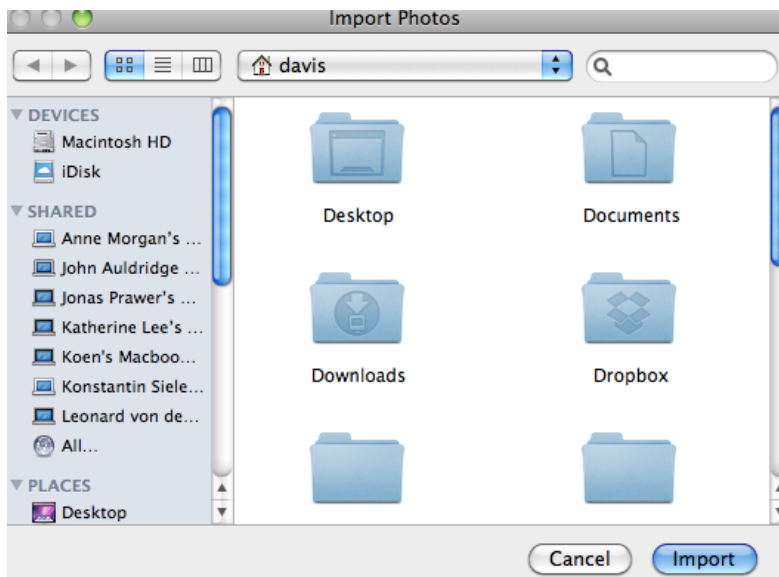

1) First open iphoto

2) Then go to file and click the import to iphoto icon.

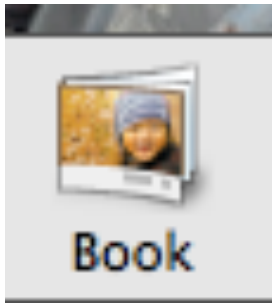

3) this should pop up. Then choose the file or files that you want to be imported to iphoto.

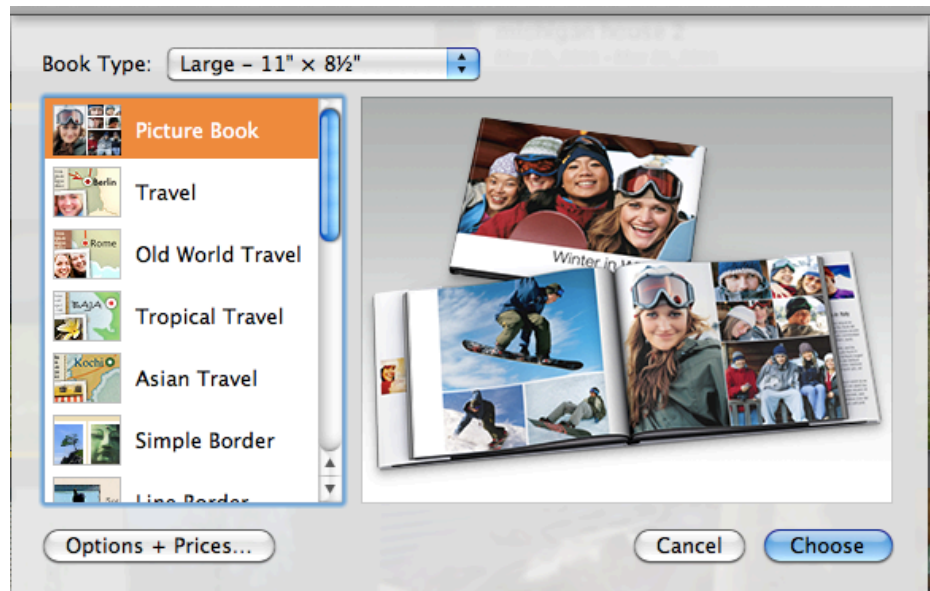

4) your photos will appear in events.

5) then click the book icon.

6) this should pop then choose a theme.

7) after choosing a theme this page will pop up. Start working on your photo book
